SUMMARY:

I am an experienced Java Developer with 8 years of experience in developing and deploying enterprise-grade applications. I have a strong understanding of software development life cycle (SDLC) and I have managed projects from inception to delivery. I have led development teams of up to 8 members and I possess excellent communication and interpersonal skills.

TECHNICAL SKILLS:

Programming Languages: Java, JavaScript, SQL, HTML, CSS Frameworks: Spring, Hibernate, AngularJS, ReactJS Database Technologies: MySQL, Oracle, MongoDB Cloud Platforms: AWS, Google Cloud, Azure Other Tools: Git, Jenkins, JIRA, Docker, Kubernetes

PROFESSIONAL EXPERIENCE:

ABC Corporation, Lead Java Developer, Jan 2019 - Present

- Led a team of 6 developers to deliver a large-scale enterprise application for a financial client.
- Designed and implemented scalable and maintainable software architecture using Spring framework.
- Developed RESTful APIs and microservices using Spring Boot and Swagger for documentation.
- Implemented security features such as OAuth 2.0 and JSON Web Tokens (JWT) for authentication and authorization.
- Utilized Jenkins for continuous integration and delivery (CI/CD) and Docker for containerization of applications.
- Worked closely with cross-functional teams to understand requirements and deliver solutions that meet business needs.

XYZ Company, Senior Java Developer, Jun 2016 - Dec 2018

- Developed and maintained a web-based application using Spring MVC framework and AngularJS.
- Integrated the application with third-party services such as payment gateways and social media platforms.
- Worked with MySQL and MongoDB databases for data storage and retrieval.
- Implemented caching and load balancing to improve application performance.

- Conducted code reviews and provided feedback to team members for code quality improvement.
- Participated in agile development process and contributed to sprint planning and retrospectives.

EDUCATION:

Bachelor's Degree in Computer Science, University of Anytown, May 2016

CERTIFICATIONS:

- Oracle Certified Professional, Java SE 8 Programmer, Oracle, June 2018

PROJECTS:

- Financial Dashboard: Developed a financial dashboard application for a client using Java, Spring framework, and Oracle database. Implemented features such as real-time data visualization and analytics.
- E-commerce Platform: Developed an e-commerce platform using Java, Spring Boot, and MongoDB database. Integrated with payment gateways and implemented features such as shopping cart and order tracking.
